## Thierry Richoux 2018 Irancy, Rouge, 'Veaupessiot'

Varietal(s)	Pinot Noir
Region	Burgundy, France
Short Summary	Thierry Richoux and his sons, Gavin and Félix, craft impressive age-worthy wines southwest of Chablis, in Irancy, an appellation specializing in Pinot Noir. Sharing the same basic geology as Chablis, Irancy's small amphitheater faces all directions but east, and includes a slope on the outside of the U, on the south hill that faces south and west—home to the lieux-dits, Veaupessiot and Palotte. Their organic and biodynamically farmed vineyards on a variety of aspects on mostly steep slopes are composed of limestone marl and clay. All grapes for red wines are hand-harvested, vinified with native yeasts, (sometimes with stems) and aged in a mix of 500l barrels, 40hl-55hl foudres and steel vats. In addition to their range of Irancy reds, they also produce a méthode Champenoise sparkling and a Rosé from Pinot Noir.
Terroir	Irancy is tucked in at the bottom of a very small amphitheater about 20 minutes west from the center of Chablis. It shares the same basic geology as Chablis: Portlandian limestone on the upper sections and Kimmerigean limestone inside of the sloped areas. Irancy has found its special climate for Pinot Noir because of its horseshoe shape that faces south, west and north. Veaupessiot is located outside the amphitheater on the south side all the way to the western edge. It is completely exposed to the elements making for a wine of tension, aroma and great freshness.
Cellar Notes	After picking by hand the grapes are 100% destemmed and cold soaked for 3 days cold soak before starting their 2-3 week spontaneous fermentation in stainless steel. Malolactic is finished naturally by the end of spring (normally, but the climate is changing things). Pre-2018 there was no SO2 before fermentation and none made throughout the élevage until bottling. There is no fining or filtration.
Farming	Sustainable—Organic Certified—Biodynamic Certified—Uncertified Naturalist
Alcohol %	12.5-13.5
Total SO2	None Added—Very Low—Low—Medium—High
