2022 RIESLING, BERGDISTEL, SMARAGD

PRODUCER OVERVIEW

Fifth generation winegrower, Martin Mittelbach runs Tegernseerhof, a winery that dates back to 1176. The Wachau is a climatic tug-of-war between eastern Pannonian warm winds and cold western and northern winds. Organically certified in the early 2020s, Tegernseerhof's vineyards are mostly located in the Wachau's eastern end on gneiss and loess. Martin's razor-sharp wines are aged exclusively in steel.

VINEYARD DETAILS

Tegernseerhof's Bergdistel Riesling comes from many small parcels in the Loiben and Weissenkirchen areas with mostly southerly exposures and altitudes between 260-380m. The bedrock and topsoil are mostly gneiss with some loess.

CELLAR NOTES

Hand harvest, rigorous sorting, no botrytis, natural ferment in stainless.
