

# THE SOURCE ARTUKE RIOJA

## 2022 PASO LAS MAÑAS, TINTO

### PRODUCER OVERVIEW

An influential leader in the movement of young Rioja winegrowers, Arturo Miguel focuses on producing single-parcel wines. The second generation of his family to grow and bottle their own wines since the end of the Spanish dictatorship, Arturo converted to organic farming as soon as he took control in the 2000s. Calcareous sandstone is the principal formation in the area with varying degrees of sand, clay and alluvium—similar in soil structure to southern Piedmont's most celebrated wine regions, Barolo and Barbaresco. Cellar techniques are straightforward with the use of principally older French oak barrels (with some American) of different sizes that highlight the differences of the five specific terroir wines (Pies Negros, Finca de los Locos, Paso las Mañas, El Escolladero, and La Condenada) all dominated by Tempranillo with some additions of Graciano. The exception in the range in general style is the ARTUKE entry-level wine, which is made with carbonic maceration (typical for the region) and aged in concrete.

### VINEYARD DETAILS

Paso las Mañas is harvested from single Tempranillo plot planted in 1999 and 2013 to 100% on calcareous clay and limestone bedrock in the Rioja Alavesa subzones between 650-720 meters of altitude on a medium-steep, south-facing slope.

### CELLAR NOTES

Paso las Mañas is naturally fermented with destemmed grapes for 5-7 days in steel at 24°C maximum temperatures without extractions, then pressed and aged for 14 months in old 35-hectoliter French oak. Light filtration.
