## 2022 MALVASIA, BRANCO

### PRODUCER OVERVIEW

#### VINEYARD DETAILS

Malvasia comes from a 0.6-ha parcel of Malvasia de Colares planted in 2015 on a mild slope facing south at 200 meters altitude, on a medium-deep calcareous clay topsoil over Jurassic limestone bedrock.

#### CELLAR NOTES

Malvasia is whole-cluster pressed and naturally fermented, and aged 10 months sur lies (including gross lees) in an average 4-year-old French oak barrel. It goes through malolactic fermentation, followed by light filtration (1.2 µm; not sterile) without fining.
