

REVEL WINE

WINTER 2025

Revel Wine represents a new generation of farmers, cider makers, distillers, winegrowers, and winemakers, many of whom work with natural, organic, or biodynamic practices in their vineyards and farms, and rely on spontaneous fermentations with wild yeasts. These are the things that we love to drink, that lead us to consider the soils where the fruit are grown, the honesty and sense of transparency with which they're made and, most importantly, their place at the table.

Domaine La Garagista // VERMONT				
"Ms. Heekin's wines are not intended to be complex works of art. They are direct and fresh, rooted in the notion that wine is food and belongs on the table, like bread or fruit." - Eric Asimov Three vineyards based on clay and limestone on Mt. Hunger, West Addison, and Vergennes are considered the "estate".

Domaine Magdalena // WASHINGTON (Demeter certified estate vineyard)				
In 2005 Maggie Hedges planted four acres of Cabernet Sauvignon in the Red Mountain AVA. Shortly thereafter they built their home on the same piece of land. The focus has always been on organic farming and in 2011 they became Demeter-certified Biodynamic. The first vintage of wine was made in 2014 and here we present the culmination of over 13 years of work and love.

Erggelet Brothers				
Julian and Sebastian Erggelet came to California in 2014 with just enough savings to cover two months' rent and buy a 'well used' Subaru. After gaining invaluable experience at wineries in Napa Valley and Contra Costa Co., they started making their own wine in 2015. In addition to sourcing fruit from the Del Barba and Cecchini Family vineyards their home vineyard has recently come on line with a focus on growing Malvasia Bianca, Xarel-lo, and Petit Manseng.

Es Okay				
Mike Lucia of Rootdown Wine Cellars created a second label to help growers find a home for their unsold fruit. Jokingly, the brand became Es Okay because at the end of the day, we know it's going to be, OK. Es Okay is designed to brighten your moment by over delivering on quality, while not denting your wallet. Each year they will make one white and one red that's better than "OK".

Forlorn Hope Wines

Matthew Rorick believes strongly that site and farming produce all that they should like to find in a bottle of wine. He doesn't want to muddy the story, by adding water, yeast, acid or enzymes, that had nothing to do with what the vines put into each of the clusters.

Iruai		1cs	3cs	5cs	
Started in 2013 by our own Chad Hinds, striving to find a voice for California Cabernet Franc and Chenin Blanc. In the Spring of 2018 he began planting a vineyard in the California Alps of Siskiyou County, using the permaculture methods laid out by Fukuoka. In the spirit of this new project he has begun experimenting with wine styles and varieties originating in the Alps of Europe. The wines seek to channel a sense of place with the goal of showcasing California's diversity.

loop de loop wines // WASHINGTON

High-altitude wines created by Julia Bailey Gulstine and Scott Gulstine. Their winery and vineyard are on an extinct shield volcano on the edge of the Cascade Mountain Range (Underwood Mountain) just over an hour from Portland. They make vintage specific wines that speak of the places they are grown – and these are some very special sites. Their own 9 acre Light Anthology vineyard is planted at 1250' in elevation, with volcanic, ashy-sandy loam soil on a 33° slope facing Southeast.

Sandlands

Sandlands is the personal project of Tegan Passalacqua. The line-up encompasses the forgotten classic California varieties, primarily grown in decomposed granite (sand), from regions and vineyards that have been farmed for many generations but have remained the outliers of California viticulture. Primarily head-trained, dry-farmed, and own rooted, the vineyards we work with harken back to California's roots of exploration, wonder, and hard work.

Scar of the Sea

Scar of the Sea are Mikey and Gina Giugni, out of San Luis Obispo, California. The ocean's presence has shaped their way of life along with the climate, soils, and geology of the vineyards in their region that fall under the spell of her fog each day. They focus on working with farmers who are instrumental in farming for the future and making wines with as little intervention as possible. Their wines are made with the intention to tell a story of where they come from, the people who farm them, and reflect each vintage under the California sun.

Slamdance Koöperatieve Wines

Slamdance is Daniel Callan, a young, ambitious winemaker who is intent on bringing historical identity back to Paso Robles. A native of Virginia, his passion for wine and history started while working part time at Sunset Hills Winery as a student at George Mason. Here Daniel found his calling for winemaking and a pull to learn more about the history of American winemaking and historical vine material. This led to harvests in Australia, New Zealand, California, and South Africa. It was South Africa that truly shaped Daniel's desire to make classically-styled wines with minimal intervention.

OUR IMPORT PARTNERS

Schatzi Wines // AUSTRIA, FRANCE, GERMANY, ITALY, SLOVENIA, SWITZERLAND

Schatzi Wines is an alternative importer and distributor, strengthening the connection between wine grower and wine drinker. Their producers have a clear voice in what is available in the US market; they have access to pricing as well as their customer base. They operate with integrity and transparency, in direct collaboration with growers, to bring the best wines to you at the best possible prices.

Strade Bianche Wines // ITALY

Strade Bianche Wines is run by three friends. Jeremy and Bobby go all way back to the playground at Byrom elementary school. Andrea and Bobby became friends while Bobby was living in Montepulciano. The company was formed organically around friendship and a shared passion for high-quality small production Italian wine.

While they strongly believe in organic or biodynamic farming, and wine produced without manipulation or additives in the cellar, to them the deeper connection is the story each wine tells. It is the story of the real people who passionate produce it, it is the story of that vintages weather, it is a story of the soil, land, and grape varieties that thrived in that small patch of land for centuries.

Broc Cellars was formed by Chris Brockway in 2002. Their goal in making wine is to bring out the natural expression of the grape by using only native fermentations. They source from an eclectic mix of grapes from all over California, working with vineyards as far south as Paso Robles and as far north as Mendocino where the Fox Hill vineyard is located which is now their estate vineyard. All of the vineyards are organically farmed and family owned.

Pence Vineyards & Winery (Certified organic (CCOF) estate vineyards; restaurant only) 1cs 3cs

Pence Vineyard's philosophy is a non-interventionist, site-driven one. If their wines express typicity, it has much more to do with their terroir and viticulture than with anything they have done in the cellar. They strive for honesty and elegance in their wines, reflecting the beautiful landscape where their grapes are grown.

Precedent Wine

Nathan Kandler is a believer in the translational role of a winemaker. His goal is to foster the voice of the soil into your glass. Native yeasts, whole cluster fermentations, minimal sulfur, and the judicious use of well seasoned French oak are some of the techniques used.

Seabold Cellars

Seabold Cellars was established in the Monterey Bay region because they believe that cool-climate organic and sustainable vineyards produce balanced wines that showcase their origin more than their winemaking. During the year, more time is spent in vineyards than the winery. They produce non-interventionist, site-specific Burgundy and Rhône varieties, as seen through a California lens.

Ulloa Cellars (oo-YO-ah) - SPECIAL ORDER

Nancy Ulloa is Ulloa Cellars. After moving to California from Guadalajara at the age of 12 Nancy moved to Paso Robles from the Bay Area in 2017 with the burning desire to learn the art of winemaking. Ysidro (ee-SEE-dro)

Saint Ysidro is the patron saint of farmers, gardeners, and workers. Co-Founders Monica, Seth, and Alex like to think of him as an early adopter of work/life balance — he embraced simple living, and valued being present to “what is” over the stresses and preoccupations of daily life. Quality time with other people the way he fueled his spiritual life. He performed miracles like striking his staff against the dry ground and bringing water to everyone in his community.

The co-founders live just a few blocks from each other off San Ysidro road, which runs through the heart of Montecito and connects the mountains to the sea. This road was the original inspiration behind the name.

Domaine de la Damase (BIO certified estate vineyards)

Domaine de la Damase is a small estate, 12 ha, organically farmed and has been in conversion into agriculture biologique since 2011. They might have remained obscure to Americans, at least, if it weren't for Kenny Likitprakong of Hobo Wine Company who befriended the Latour family and imports some of their wines.
