

REVEL WINE

SPRING 2025

Revel Wine represents a new generation of farmers, cider makers, distillers, winegrowers, and winemakers, many of whom work with natural, organic, or biodynamic practices in their vineyards and farms, and rely on spontaneous fermentations with wild yeasts. These are the things that we love to drink, that lead us to consider the soils where the fruit are grown, the honesty and sense of transparency with which they're made and, most importantly, their place at the table.

Domaine La Garagista // VERMONT

"Ms. Heekin's wines are not intended to be complex works of art. They are direct and fresh, rooted in the notion that wine is food and belongs on the table, like bread or fruit." - Eric Asimov Three vineyards based on clay and limestone on Mt. Hunger, West Addison, and Vergennes are considered the "estate".

Domaine Magdalena // WASHINGTON (Demeter certified estate vineyard)

In 2005 Maggie Hedges planted four acres of Cabernet Sauvignon in the Red Mountain AVA. Shortly thereafter they built their home on the same piece of land. The focus has always been on organic farming and in 2011 they became Demeter-certified Biodynamic. The first vintage of wine was made in 2014 and here we present the culmination of over 13 years of work and love.

Erggelet Brothers

Julian and Sebastian Erggelet came to California in 2014 with just enough savings to cover two months' rent and buy a 'well used' Subaru. After gaining invaluable experience at wineries in Napa Valley and Contra Costa Co., they started making their own wine in 2015. In addition to sourcing fruit from the Del Barba and Cecchini Family vineyards their home vineyard has recently come on line with a focus on growing Malvasia Bianca, Xarel-lo, and Petit Manseng.

Es Okay

Mike Lucia of Rootdown Wine Cellars created a second label to help growers find a home for their unsold fruit. Jokingly, the brand became Es Okay because at the end of the day, we know it's going to be, OK. Es Okay is designed to brighten your moment by over delivering on quality, while not denting your wallet. Each year they will make one white and one red that's better than "OK".

Forlorn Hope Wines

Matthew Rorick believes strongly that site and farming produce all that they should like to find in a bottle of wine. He doesn't want to muddy the story, by adding water, yeast, acid or enzymes, that had nothing to do with what the vines put into each of the clusters.

Iruai

Started in 2013 by our own Chad Hinds, striving to find a voice for California Cabernet Franc and Chenin Blanc. In the Spring of 2018 he began planting a vineyard in the California Alps of Siskiyou County, using the permaculture methods laid out by Fukuoka. In the spirit of this new project he has begun experimenting with wine styles and varieties originating in the Alps of Europe. The wines seek to channel a sense of place with the goal of showcasing California's diversity.

Lady of the Sunshine (Demeter certified estate vineyard)

Gina Giugni, a second-generation biodynamic farmer, began Lady of the Sunshine in 2017 as a personal project and an invitation to care more deeply, farm more gently, and drink with intention - a commitment to thoughtful farming, natural winemaking, and cultivating a lasting relationship with the land as an act of preservation. What started as a journey of leasing small vineyard plots over the years, Gina and her husband, Mikey, found their forever farm in 2024, the 29 acre Bassi Vineyard, located just one mile from the Pacific Ocean in the SLO Coast AVA. Bassi is now at the heart of the project, but a piece of the total 42 acres that they farm together with a deep respect for the natural rhythms of the earth.

loop de loop wines // WASHINGTON

High-altitude wines created by Julia Bailey Gulstine and Scott Gulstine. Their winery and vineyard are on an extinct shield volcano on the edge of the Cascade Mountain Range (Underwood Mountain) just over an hour from Portland. They make vintage specific wines that speak of the places they are grown – and these are some very special sites. Their own 9 acre Light Anthology vineyard is planted at 1250' in elevation, with volcanic, ashy-sandy loam soil on a 33° slope facing Southeast.

Outward Wines – NEW!!!

Outward is a partnership between Natalie Siddique and Ryan Pace focused on producing small-lot, site-specific wines that showcase the diversity of terroir across the Central Coast. Using organic and regenerative practices, they farm 6 acres in the San Luis Obispo Coast and Santa Ynez Valley, and source from other thoughtfully farmed sites that span the region. In the cellar, they ferment with native yeast, age in neutral oak barrels, and bottle without fining or filtration to allow for a clear picture of what each site provides naturally and to give the wines a true sense of time and place.

Sandlands – INQUIRE INTO AVAILABILITY

Sandlands is the personal project of Tegan Passalacqua. The line-up encompasses the forgotten classic California varieties, primarily grown in decomposed granite (sand), from regions and vineyards that have been farmed for many generations but have remained the outliers of California viticulture. Primarily head-trained, dry-farmed, and own rooted, the vineyards we work with harken back to California's roots of exploration, wonder, and hard work.

Scar of the Sea (Demeter certified estate vineyard)

1cs 3cs 5cs

Scar of the Sea was established in 2012 and is owned and operated by Mikey & Gina Giugni in San Luis Obispo, CA. What began as a grassroots journey - leasing small coastal vineyard sites - has grown into a deeper relationship between farming and the land.

Mikey & Gina recently found their forever farm, the Bassi Vineyard. This coastal site, farmed using regenerative and biodynamic principles, is now their home vineyard.

With it, they now steward 42 acres in total with their small, dedicated team, always listening to the rhythms of the earth and sea.

Slamdance Koöperatieve Wines

Slamdance is Daniel Callan, a young, ambitious winemaker who is intent on bringing historical identity back to Paso Robles. A native of Virginia, his passion for wine and history started while working part time at Sunset Hills Winery as a student at George Mason. Here Daniel found his calling for winemaking and a pull to learn more about the history of American winemaking and historical vine material. This led to harvests in Australia, New Zealand, California, and South Africa. It was South Africa that truly shaped Daniel's desire to make classically-styled wines with minimal intervention.

OUR IMPORT PARTNERS

Schatzi Wines // AUSTRIA, FRANCE, GERMANY, ITALY, SLOVENIA, SWITZERLAND

Schatzi Wines, started by Kevin Pike, is an alternative importer and distributor, strengthening the connection between wine grower and wine drinker. Their producers have a clear voice in what is available in the US market; they have access to pricing as well as their customer base. They operate with integrity and transparency, in direct collaboration with growers, to bring the best wines to you at the best possible prices.

Strade Bianche Wines // ITALY, ROMANIA

Strade Bianche Wines is run by three friends. Jeremy and Bobby go all way back to the playground at Byrom elementary school. Andrea and Bobby became friends while Bobby was living in Montepulciano. The company was formed organically around friendship and a shared passion for high-quality small production Italian wine.

While they strongly believe in organic or biodynamic farming, and wine produced without manipulation or additives in the cellar, to them the deeper connection is the story each wine tells. It is the story of the real people who passionate produce it, it is the story of that vintages weather, it is a story of the soil, land, and grape varieties that thrived in that small patch of land for centuries.

OUR CIDER SELECTIONS

Eden Specialty Ciders // VERMONT

In April 2007, Eleanor and Albert Leger bought an abandoned dairy farm in West Charleston, Vermont and got to work. Since then they have planted over 1,000 apple trees, created many vintages of Eden Ice Cider, and have introduced a new line of Orleans Aperitif Ciders, delicious on their own or blended in a cocktail.

Scar of the Sea

Scar of the Sea are Mikey and Gina Giugni, out of San Luis Obispo, California. The ocean's presence has shaped their way of life along with the climate, soils, and geology of the vineyards in their region that fall under the spell of her fog each day. They focus on working with farmers who are instrumental in farming for the future and making wines with as little intervention as possible. Their wines are made with the intention to tell a story of where they come from, the people who farm them, and reflect each vintage under the California sun.

WINES WE BROKER

All of the following producers are represented by us but we do not own the wines. This means that there are separate shipping minimums and discount structures for each producer. There are a few “families” where several “brands” are made by one producer. We have listed those wines together for ease of locating them.

Maître de Chai (May-TRUH de Shay)

Established in 2012, Maître de Chai is the personal project of Marty Winters and Alex Pitts. Together they look to make wines of high quality in a way that best showcases the sense of place where the grapes are grown and the personality of the vineyard. From the ground to the bottle, the character of the wine is the focus of our endeavor. They source grapes from unique and distinct single vineyards that are impeccably farmed here in California.

ORIXE SOTELO

Gustavo & Jackie Sotelo are the proprietors behind Orixe Sotelo, founded in Sonoma, California in 2019. Orixe (o-REE-shay) is a Galician word from Latin "origo" meaning: "beginning, source, birth, origin". Their name, Sotelo, originates in the coastal mountains of Galicia, Spain. O.S. is the lens through which they aspire to expand upon California's wine culture, specifically through the use of Spanish grape varieties.

Pence Vineyards & Winery (Certified organic (CCOF) estate vineyards; restaurant only)

Pence Vineyard's philosophy is a non-interventionist, site-driven one. If their wines express typicity, it has much more to do with their terroir and viticulture than with anything they have done in the cellar. They strive for honesty and elegance in their wines, reflecting the beautiful landscape where their grapes are grown.

Precedent Wine

Nathan Kandler is a believer in the translational role of a winemaker. His goal is to foster the voice of the soil into your glass. Native yeasts, whole cluster fermentations, minimal sulfur, and the judicious use of well seasoned French oak are some of the techniques used.

Seabold Cellars

Seabold Cellars was established in the Monterey Bay region because they believe that cool-climate organic and sustainable vineyards produce balanced wines that showcase their origin more than their winemaking. During the year, more time is spent in vineyards than the winery. They produce non-interventionist, site-specific Burgundy and Rhône varieties, as seen through a California lens.

Ysidro (ee-SEE-dro)

Saint Ysidro is the patron saint of farmers, gardeners, and workers. Co-Founders Monica, Seth, and Alex like to think of him as an early adopter of work/life balance — he embraced simple living, and valued being present to “what is” over the stresses and preoccupations of daily life. Quality time with other people the way he fueled his spiritual life. He performed miracles like striking his staff against the dry ground and bringing water to everyone in his community.

The co-founders live just a few blocks from each other off San Ysidro road, which runs through the heart of Montecito and connects the mountains to the sea. This road was the original inspiration behind the name.

Hobo Wine Company (see also page 20)

Domaine de la Damase (BIO certified estate vineyards)

Domaine de la Damase is a small estate, 12 ha, organically farmed and has been in conversion into agriculture biologique since 2011. They might have remained obscure to Americans, at least, if it weren't for Kenny Likitprakong of Hobo Wine Company who befriended the Latour family and imports some of their wines.
